*Food is the sustenance of life which nourishes the body, restores the spirit and soothes the soul*

In Italy, people work to live and satisfy their life, as their ancestors have always done. The artisan baker still tends to his hearth, the barista pulls your morning espresso and the food markets burst with the season's best offerings. Our new gourmet line celebrates this way of life and honors the philosophy that food is daily sustenance for the spirit as well as the appetite.

### Welcome

There's a new face at Pine Tree, Katie Stahl. Katie comes to us with a degree in interior design from Ohio State University. She has been familiarizing herself with all the wonderful things that Pine Tree has to offer, and we're very glad she's part of the Pine Tree Team!

### What's New

We've just finished our 18th C. Expos, and the reviews from those of you who attended have been glowing, Thank you! With the pressure to buy offshore, we wanted to present some success stories of American craftsmen. At the J.L.Treharn talk we were introduced to the new personalized line, "Treharn Today" and quite frankly, we're smitten! In just 10 easy steps, you can have a table built just the way you'd like it. We have some examples on the floor, so stop in if you missed the talk, we'd love to share!
